EDUCATION

- 2015 **Ph.D.** in Petroleum Engineering, University of Calgary, Alberta, Canada
- 2011 **M.Sc.** in Petroleum Engineering, University of Calgary, Alberta, Canada
- 2008 **M.Eng.** in Reservoir Engineering, University of Calgary, Alberta, Canada
- 2007 **M.Sc.** in Chemical Engineering, Petroleum University of Technology, Tehran, Iran
- 2005 **B.Sc.** in Petroleum Engineering, Petroleum University of Technology, Ahwaz, Iran

PROFESSIONAL AND ACADEMIC APPOINTMENTS

- 08/2023 – present **Program Chair, Petroleum and Natural Gas Engineering**
Department of Energy and Mineral Engineering, Penn State University, USA
- 07/2021 – present **Associate Professor**
Department of Energy and Mineral Engineering, Penn State University, USA
- 10/2015 – 06/2021 **Assistant Professor**
Department of Energy and Mineral Engineering, Penn State University, USA
- 06/2015 – 09/2015 **Postdoctoral Fellow**
Department of Geoscience, University of Calgary, Canada
- 09/2009 – 04/2015 **Research Assistant**
Dept. of Chemical & Petroleum Eng., University of Calgary, Canada
- 08/2014 – 01/2015 **Visiting Research Fellow**
CSIRO, Melbourne, VIC, Australia
- 08/2013 – 12/2013 **Reserves Evaluation Engineer**
Ryder Scott Company, Calgary, Canada
- 09/2008 – 08/2009 **Research Assistant**
PTRC, University of Regina, Canada
- 05/2007 – 06/2008 **Instructor**
National Iranian Gas Company, Esfahan, Iran
- 01/2007 – 08/2008 **Research Assistant**
PUT Research Centre, Tehran, Iran

EXPERTISE

- Multiphase flow and transport phenomena in porous media
- Carbon dioxide and hydrogen storage in geological formations
- Unconventional reservoir production analysis and hydrocarbon recovery
- Mathematical modeling and numerical simulations

HONORS AND AWARDS

1. Outstanding Associate Editor Award, SPE Journal, 2022, 2023, 2024
2. Distinguished Achievement Award for Petroleum Engineering Faculty, Eastern North America Region, Society of Petroleum Engineers, 2023
3. A Peer Apart Award, SPE's Technical Journals, Society of Petroleum Engineers, 2022
4. Dr. Charles H. Bowman and Lynn A. Holleran Early Career Professorship in Petroleum and Natural Gas Engineering, Penn State University, 2022 – 2025
5. Outstanding Technical Reviewer Award, SPE Journal, 2021 and 2023
6. Matthew J. Wilson, Jr. Travel Grant, EMS College, Penn State University, 2022
7. E. Willard & Ruby S. Miller Faculty Fellowship, Penn State University, 2021 – 2026
8. Quentin E. and Louise L. Wood Endowed Faculty Fellow in Petroleum and Natural Gas Engineering, Penn State University, 2021 – 2022
9. Service Award, Eastern North America Region, Society of Petroleum Engineers, 2021
10. Matthew J. Wilson, Jr. Travel Grant, EMS College, Penn State University, 2020
11. Cedric K. Ferguson Medal, Society of Petroleum Engineers, 2019
12. Matthew J. Wilson, Jr. Travel Grant, EMS College, Penn State University, 2019
13. Wilson Research Initiation Grant, Penn State University, 2019
14. Matthew J. Wilson, Jr. Travel Grant, EMS College, Penn State University, 2018
15. Reservoir Description and Dynamics Award, Eastern North America Region, Society of Petroleum Engineers, 2018
16. Matthew J. Wilson, Jr. Travel Grant, EMS College, Penn State University, 2018
17. Gladys Snyder Junior Faculty Grant, EMS College, Penn State University, 2016
18. Endeavour Research Fellowship, Department of Education, Australia, 2014 – 2015
19. Alberta Innovates Technology Futures Fellowship, AITF, Canada, 2014 – 2015
20. Engineering Graduate Excellence Scholarship, University of Calgary, 2014
21. Eyes High International Doctoral Scholarship, University of Calgary, Canada, 2013
22. Best Poster Prize, University of Warwick, UK Energy Research Centre, UK, 2013
23. UKERC Energy and Environment School, UK Energy Research Centre, UK, 2013
24. Schulich Student Activities Fund, University of Calgary, Canada, 2013
25. Faculty of Graduate Studies Travel Grant, University of Calgary, Canada, 2013
26. CMC Travel Grant, Carbon Management Canada, 2013
27. PennWest Graduate Excellence Scholarship, PennWest Exploration, Canada, 2012
28. OMAE Graduate Excellence Scholarship, American Society of Mechanical Engineering, 2012
29. Petroleum Systems Graduate Excellence Scholarship, University of Regina, Canada, 2009
30. NIOC Dual-Degree Program Scholarship, National Iranian Oil Company, Iran, 2005 – 2007
31. NIOC Bachelor's Degree Scholarship, National Iranian Oil Company, Iran, 2001 – 2005

RESEARCH PROJECTS

1. Multiphase multicomponent fluid transport in nanoporous media
2. ML tools for CO₂ storage in subsurface reservoirs
3. Cyclic solvent injection in ultratight reservoirs
4. Capillary trapping controlled by geochemical reactions in porous media
5. Flowback rate transient analysis of multi-fractured horizontal wells (Completed)
6. Gas lift optimization in unconventional oil reservoirs (Completed)
7. Instability of convective dissolution of CO₂ in deep saline aquifers (Completed)
8. Artificial neural network models for chemical enhanced oil recovery processes (Completed)
9. Solubility trapping of carbon dioxide in deep saline aquifers (Completed)
10. Production data analysis of liquid-rich gas reservoirs (Completed)
11. Mixing induced by buoyancy-driven flows in porous media (Completed)
12. Geomechanics consideration in hydraulic fracturing (Completed)
13. Modeling of heat/mass transfer near wellbore formation during steam injection (Completed)
14. Experimental study of polymer flooding using five-spot glass micromodels (Completed)
15. Impact of reservoir fluid properties on gas-lift design (Completed)

RESEARCH SUPERVISION

PhD

1. **Chia-Hsin Yang** Energy and Mineral Eng. – PNGE Option, Summer 2028 (expected)
“Multiphase flowback rate transient analysis of unconventional wells”
2. **Qian Zhang** Energy and Mineral Eng. – PNGE Option, Spring 2028 (expected)
“Fluid injection in low-permeability reservoirs by considering mass transport and heat transfer”
3. **Dexuan Li** Energy and Mineral Eng. – PNGE Option, Summer 2026 (expected)
“Hydrogen loss and contamination during seasonal hydrogen storage in depleted gas reservoirs”
4. **Miao Jin** Energy and Mineral Eng., Summer 2025 (expected)
“Prediction of flowing bottomhole pressure for unconventional wells using machine learning techniques”
5. **Kawthar Babatunde** Energy and Mineral Eng. – PNGE Option, Summer 2025 (expected)
“Multicomponent gas transport in nanoporous media controlled by adsorption”
6. **Ming Ma** Energy and Mineral Eng. – PNGE Option, Fall 2024
“Multiphase multicomponent modeling of cyclic solvent injection in ultratight reservoirs”
7. **Zizhong Liu** Energy and Mineral Eng. – PNGE Option, Summer 2022
“Adsorption-controlled gas transport in nanoporous media”
8. **Fengyuan Zhang** Energy and Mineral Eng. – PNGE Option, Fall 2020
“Flowback rate transient analysis of multi-fractured horizontal wells in tight and ultratight reservoirs”
9. **Michael Cronin** Energy and Mineral Eng. – PNGE Option, Summer 2020
“Cyclic solvent injection in ultratight reservoirs based on the diffusion process”, Co-advisor: Russell T. Johns

MSc

10. **Almat Saginbayev** Energy and Mineral Eng. – PNGE Option, Summer 2026 (expected)
“Machine learning-based prediction of fluid properties in nanopores”
11. **Naif Alnahdi** Energy and Mineral Eng. – PNGE Option, Summer 2026 (expected)
“Hydrogen loss and contamination during seasonal storage in depleted hydrocarbon reservoirs”
12. **Chia-Hsin Yang** Energy and Mineral Eng. – PNGE Option, Fall 2024
“Three-phase flowback rate transient analysis of gas condensate wells”
13. **Yusuf Shakeel** Energy and Mineral Eng. – PNGE Option, Summer 2022
“Diffusion-based modeling of binary gas transport in organic-rich ultratight reservoirs”
14. **Mohammad Abdullah** Energy and Mineral Eng. – PNGE Option, Spring 2019
“Artificial neural network models for chemical enhanced oil recovery processes”, Co-advisor: Turgay Ertekin
15. **Yun Yang** Energy and Mineral Eng. – PNGE Option, Fall 2017
“Mathematical development for flowback rate transient analysis”, Co-advisor: Luis F. Ayala
16. **Madhu Singh** Energy and Mineral Eng. – PNGE Option, Spring 2017
“Density-based rescaled exponential model for gas-condensate reservoirs during boundary-dominated flow”

BSc

17. **Chia-Hsin Yang** Energy and Mineral Engineering, Summer 2023
“Early time production data analysis of unconventional oil wells”
18. **Kory Kearns** Energy and Mineral Engineering, Summer 2021
“Flowback production data analysis of shale reservoirs”
19. **Collin Herndon** Energy and Mineral Engineering, Summer 2020
“Pulsed gas injection in fractured tight oil reservoirs”

Visiting Scholar

20. **Mostafa Jafari-Raad** PhD scholar, University of Calgary, 2018
“Instability of convective dissolution of CO₂ in deep saline aquifers”

GRADUATE STUDENT COMMITTEE

Ph.D. Committee External Examiner

1. Yu, H. (Spring 2024) Pore-Scale Modeling for Interphase Mass Transfer during the VAPEX Process, Department of Civil and Environmental Engineering, University of Alberta
2. Gang, H. (Fall 2021) An Integrated Approach to Characterize Hydraulic Fracturing-Induced Seismicity in Shale Reservoirs, Department of Chemical and Petroleum Engineering, University of Calgary
3. Zhang, C. (Spring 2018) Reservoir Modeling Using Automated Solution Techniques: Solver Development, Application, and Optimization, Department of Engineering Science, University of Auckland

Ph.D. Committee Member

1. Wu, Y. (Comp. exam, Spr. 2023) Caprock Integrity Analysis of the Interaction Between Elastoplastic Caprock and Poroelastic Reservoir
2. Zhang, Q. (Comp. exam, Fall 2022) Techniques to Improve Heat Extraction in Enhanced Geothermal Systems
3. Su, X. (Sum. 2023) Geomechanics of Disturbances in Pore Fluid Pressure of The Subsurface Rocks with Applications in Stability Analysis of Infill Wells in Depleted Reservoirs
4. Nobrega, J. (Sum. 2022) Production Data Analysis of Unconventional Gas Reservoirs with Variable Inner Boundary Constraints
5. Wang, Z. (Sum. 2022) Pore-Scale Study on Partially Multiphase Transport in Liquid-Rich Shale Gas Reservoirs Using the Lattice Boltzmann Method
6. Zhang, W. (Sp. 2022) Nonlinear Poroelastic Solutions for the Pore Fluid Flow and Sorption in Deformable Rocks
7. Chandna, A. (Fall 2020), Modeling Natural Fracture Networks Using Improved Geostatistical and Geomechanical Inferences
8. Santos, L. Y. (Sp. 2020) A Comprehensive Wellbore Cement Integrity Analysis & Remedies
9. Zhi, W. (Fall 2019) Understanding Hydrological and Biogeochemical Control on Solute Export Pattern at Watershed Scale
10. Singh, M. (Sp. 2019) Quantitative Inversion of Microseismic Data: Bayesian Model Selection Using Fast Proxies for Fracturing and Wave Propagation
11. Chakraborty, N. (Sp. 2019) Fundamental Investigation of Gas Storage/Transport in Shales
12. Schwartz, B. (Fall 2018) The Role of Pore Structure in Permeability Evolution Observed in Laboratory Studies of Marcellus and Wolfcamp Shale
13. Zhang, R. (Fall 2018) Pore Structure & Sorption Behavior of Unconventional Reservoir Rocks
14. Udegbe, E. (Sum. 2018) Pattern Recognition for Fractured Res. Characterization using Big Data
15. Zhang, C. (Sp. 2018) Reservoir Modeling Using Automated Solution Techniques: Solver Development, Application, and Optimization
16. Cai, Z. (Sp. 2018) Understanding Reactive Transport of Marcellus Shale Waters
17. Lei, X. (Sp. 2018) Joint Inversion of Compressional/Shear Wave Attenuation to Characterize Gas Res.
18. Li, L. (Fall 2017) Effects of Hysteresis and Heterogeneity on the Gas Flooding Performance
19. Rana, S., Development of Assisted History Matching Tool Using Gaussian Process Based Proxy Models and Variogram Based Sensitivity Analysis
20. Torrealba, V. (Fall 2017) Thermodynamics of Microemulsion Systems: Partitioning Relationships, Phase Behavior and Interfacial Tensions
21. Putcha, V. (Sum. 2017) Integration of Numerical and Machine Learning Protocols for Coupled Reservoir-Wellbore Models: A Study for Continuous Gas Lift Optimization
22. Zhang, Z. (Sum. 2017) Predicting Petrophysical Properties from Rate Transient Data: An AI Application

M.Sc. Committee Member

1. Ukaomah, C. (Sp. 2025) CO₂-Fluid-Rock Interactions in a Fractured Cores

2. Dong, B. (Sum. 2024) Experimental Investigation of CO₂-Fluid-Rock Interactions in a Fractured Basalt Core
3. Yoga, H. (Sp. 2022) Machine Learning Approach for Prediction of Relative Permeability
4. Lou, X. (Sum. 2019) Experimental Study of Gas-Liquid Diffusion in Porous Rocks and Bulk Fluids
5. Joon, S. (Fall 2018) Velocity Model Calibration Using Distributed Acoustic Sensors & Sparse Geophones
6. Zhong, X. (Sum. 2018) Pressure Transient Analysis of Shale Gas Reservoir with Horizontal Boreholes: An Artificial Intelligence Based Solution
7. Ahn, E. (Sp. 2018) Multi-Well Analytical Solution for Coning Under Simultaneous Steady-State Flow of Three Phases
8. Galimberti, E. (Sp. 2018) Dispersion and Its Effect on the Surfactant-Polymer Flooding Process
9. Da, L. (Fall 2017) Screening and Design Criteria for Slanted Wells
10. Rajendren, K. (Fall 2017) Integration of Random-pore Model and Langmuir-Hinshelwood Kinetics to Study High Temperature Coal Gasification.
11. Nguema, C. A. (Sum. 2017) Development of Artificial Neural Networks Applicable to Single Phase Unconventional Gas Reservoirs with Slanted Wells.
12. Zhang, Y. (Sum. 2017) Characterization of Tight Gas Reservoirs with Stimulated Reservoir Volume in an Artificial Intelligence Application
13. Shang, B. (Sum. 2017) Design of Brine Disposal Wells in Depleted Gas Reservoirs via Artificial Neural Network Protocols

23. Pakoz, U. (Fall 2015) Effect of Changing Injection Water Salinity on Oil Recovery from Oil-Wet Carbonate Rocks

COURSES TAUGHT

Subsurface Energy Engineering (EME 310) @ Penn State University (USA): Overview of subsurface energy resources and their engineering principles, 2026

Surface Production Engineering (PNG 480) @ Penn State University (USA): Fundamentals of surface production operations and underlying operational principles, 2016 – presents

Production Engineering Laboratory (PNG 482) @ Penn State University (USA): Basic measurements and production engineering principles in surface facilities, 2016 – 2024

Unconventional Resources Analysis (PNG 555) @ Penn State University (USA): Reservoir engineering aspects and characteristics of unconventional reservoirs, 2016 – presents

Unconventional Reservoirs @ University of Los Andes (Colombia): Reservoir engineering analysis of unconventional reservoirs (shales, CBM, tight sands, gas hydrates), 2018 – 2023

Waterflooding @ Petroleum Engineering Summer School (Croatia): Waterflood performance, surveillance, and case studies, 2023

Behavior of Liquids, Gases & Solids Laboratory (ENGG 201) @ University of Calgary (Canada): Measurement of basic thermodynamic and transport properties of fluids & solids, 2014 – 2015

Natural Gas Distribution Systems @ National Gas Company (Iran): Fundamentals of gas distributions and related operations, 2007 – 2008

UNIVERSITY SERVICE

Strategic and Planning Committees

Vice Chair, University Senate Committee for Research, Scholarship, & Creative Activity, 2024

Member, Penn State University Faculty Senate, 2022 – present

Member, EME Department Strategy/Executive Committee, 2024 – present

University Representative, Aramco College Fair in Dhahran, Saudi Arabia, 2023, 2024

Department Representative, Energy-Related Engineering Colleges in Beijing, China, 2023

Member, CoE+ DEIB Department Leads Committee, Engineering Departments, 2023

Member, EME Graduate Studies and Research Committee, 2019 – 2022

Member, EME-Industry Collaboration Committee, 2020

Member, Energy Institute Strategic Planning Committee, 2020

Member, EME Efficient Teaching Opportunities and Strategies Committee, 2017

Member, EME Lab and Space Planning Committee, 2017

Faculty Coordinator/Presenter, Earth and Mineral Sciences Exposition (EMEX), 2019 – present

Faculty Coordinator, PNGE Program Representative, 2016 – present

Evaluation Committees

Member, AC-14 Review Committee, EMS Dean Academic Administrative Evaluation, 2024

Member, EME Department Head Search Advisory Committee, 2023 – 2024

Chairperson, EME-PNGE Faculty Search Committee, 2023

Member, Faculty Activity Summary Review Committee, 2017, 2024
Member, EMS College Graduate Faculty Nomination Evaluation Committee, 2022 – 2023
Member, EME Department Faculty Promotion and Tenure Committee, 2021 – 2023
Chairperson, EME PhD Qualifying Examination Committee, 2021 – 2022
Member, EME PhD Qualifying Examination Committee, 2018 – 2021
Member, CIES-EME Faculty Search Committee, 2020
Member/Participant, EME Department Faculty Hiring Committee, 2017 – present
Judge, Student Paper Contest, Penn State SPE Student Chapter, 2017 – present
Judge, EMS Graduate Research Showcase, EMS Graduate Student Council, 2017 – 2021

PROFESSION SERVICE

Editorial and Planning Boards

Chair, Reservoir Engineering Subcommittee, SPE Reservoir Advisory Committee, SPE International, 2024 – present
Board Member, Petroleum Engineering Department Head Association (PEDHA), 2024 – present
Founding Committee Member, Interpore- Midwest & Northeast US Chapter, 2022 – 2024
Associate Editor, SPE Journal, 2019 – present
Associate Editor, Journal of Energy Resources Technology, 2025 – present
Associate Editor, Journal of Petroleum Exploration and Production Technology, 2016 – 2020
Guest Editor, Gas Science and Engineering, Special Issue of “Advancement in Gas Production and Storage”, 2024 – 2025
Guest Editor, Journal of Advances in Applied Energy, Special Issue of “Carbon Capture, Utilization and Storage”, 2023 – 2024
Guest Editor, Journal of Applied Energy, Special Issue of “Carbon Capture, Utilization and Storage”, 2023 – 2024
Guest Editor, Journal of Energy Resources Technology, Special Issue of “International Carbon Capture, Utilization and Storage Conference 2023”, 2024
Guest Editor, Journal of Mathematical Geosciences, Special Issue for “IAMG 2019 Conference”, 2019 – 2020
Guest Editor, As, Special Issue of “Fundamentals of CO₂ Storage in Geological Formations”, 2017 – 2018

Conference Committees

Young Professionals Committee Member, World CCUS Conference, Bergen, Norway, Sept. 2025
Session Chair and Technical Program Committee Member, SPE Improved Oil Recovery Conference – Critical Technologies of the Future, Tulsa, OK, April 2024
Organizing Committee Member, SPE/PEDHA Workshop: Fueling the Future – Petroleum Engineering Industry/Education in a New Era, Houston, TX, August 2024
Organizing/Scientific Committee Member, 20th International Association for Mathematical

Geosciences (IAMG) Conference, State College, PA, August 2019

Minisymposium Organizer, Interpore 10th Annual Meeting and Jubilee Conference, New Orleans, LA, May 2018

Award Committees

Awards Committee Member, SPE International, 2024 – present
Major awards, technical awards, and service awards

Student Chapter Awards and Recognition Judge, SPE International, 2024 – present

Scholarship and Fellowship Committee Member, SPE International, 2018 – present
Gus Archie Scholarship, Nico van Wingen Graduate Fellowship, Donald G. Russell Scholarship, Henry DeWitt Smith Fellowship, Imomoh Scholarship

Chairperson, Iranian American Academics Professionals Scholarships, Penn State, 2017 – 2019

Advisor

Faculty Advisor, Penn State SPE Student Chapter, 2018 – present

Faculty Advisor, Petroleum & Natural Gas Engineering program at Penn State, 2015 – present

Technical Reviewer

External Examiner, Petroleum Eng. Program, University of Trinidad and Tobago, 2016 – 2019

Research Grant Reviewer, Peer Review of Grant Proposals, 2017 – present
US National Science Foundation; American Chemical Society – PRF; United States-Israel Binational Science Foundation; Israel Science Foundation; Swiss National Science Foundation; KAUST

Book Reviewer, Peer Review of Book Proposals, 2015 – present
Elsevier and Springer

Reviewer, Peer Review of Manuscripts, 2011 – present
AAPG Bulletin; Asia-Pacific Journal of Chemical Engineering; Chemical Engineering Science; Earth-Science Reviews; International Journal of Greenhouse Gas Control; International Journal of Heat and Mass Transfer; International Journal of Multiphase Flow; Journal of Advances in Water Resources; Journal of Energies; Journal of Energy and Fuels; Journal of Energy Resources Technology; Journal of Environmental Earth Sciences; Journal of Fluids; Journal of Fuel; Journal of Greenhouse Gases: Science and Technology; Journal of Hydrology; Journal of Mathematical Geosciences; Journal of Natural Gas Science and Engineering; Journal of Petroleum Exploration & Production Technology; Journal of Petroleum Science and Engineering; Journal of Physics of Fluids; Journal of Porous Media; Journal of Reservoir Evaluation and Engineering; Journal of Transport in Porous Media; Journal of Water Resources Research; Journal of Zhejiang University Science A; Petroleum; SPE Journal

PROFESSIONAL ASSOCIATIONS

- Society of Petroleum Engineers (SPE), 2005 – present
- American Chemical Society (ACS), 2023 – present
- International Association for Mathematical Geosciences (IAMG), 2019
- Association of Engineers Geologists and Geophysicists Alberta (APEGA), 2012 – 2020
- American Physical Society (APS), 2015
- American Geophysical Union (AGU), 2014 – 2016
- Canadian Heavy Oil Association (CHOA), 2013 – 2015
- Canadian Society for Chemical Engineering (CSChE), 2013
